

Announcing End of Life (EOL) for Mvix XhibitSignage (v2)

Dear valued customers,

At Mvix, we are continuously committed to developing innovative digital communication solutions. We would like to express our gratitude for your business as we strive to deliver feature-rich products. As the market evolves and technology advances, it is inevitable that some products reach their natural end of their life cycle.

With this in mind, we are announcing the end of life (EOL) for the Mvix XhibitSignage (v2) Digital Signage Systems. The v2 platform was launched in 2013 and quickly gained popularity due to its affordability, simplicity, and user-friendly interface. Over the past decade, our solution has become a favorite choice in the education, healthcare, and employee communication verticals, powering thousands of screens across 6 continents.

End of life is a normal part of the product life cycle, and it allows us to introduce more technologically-advanced, robust, and stable options. In 2021, we launched our highly regarded CMS v3 platform, which has already been adopted by the majority of our clients and devices.

We will continue to provide support for XhibitSignage v2 systems until July 31, 2023. Our goal is to migrate all remaining devices and accounts to the new platform within the next few weeks. However, after July 31, 2023, we cannot guarantee the functionality of v2 systems, and we will cease to offer support, version updates, & software assistance.

To ensure the continuity of your signage network, we strongly encourage you to get in touch with our client success team as soon as possible. They will help expedite your migration options and guide you through the transition process. The CMS v3 platform offers significantly more features, content options, and increased reliability in managing your signage network.

We sincerely appreciate your continued support and look forward to assisting you in seamlessly transitioning to the CMS v3 platform and hope you enjoy leveraging it.

Thank you,

Mike Kilian | Executive Vice President
